Important Notes & Booking Terms

- Our flowers are grown on our on-farm flower patch where we grow a variety of dahlias, so we can never guarantee exactly which stems will be provided for your wedding in terms of variety or colours. We are at the mercy of the British weather, and different varieties flower better at different times of the mid-August to late October dahlia season. You therefore need to be easy-going about the final flower selection, which is entirely at our discretion. It will depend on which colours and varieties are flowering on the required date, although we will try our best to ensure all stems fall within your preferred colour palette.

- We will not buy in alternatives. We only provide what is available from our patch at the time of picking.
- Freshly cut flowers are sensitive to warmth & heat and therefore must be transported & stored in appropriate conditions. We suggest keeping them in a fridge or very cool place until they are needed, in a bucket of cold water with water not above any foliage growth. We will not take responsibility for the stems once they are collected.
- A non-refundable 25% deposit is required to secure your booking. Final payment is due one month before your wedding date at the latest, or your booking may be forfeited without notice.
- Prices include VAT
- Photos on this booking form are provided by way of example only

☐ We understand and accept the seasonal nature of the flower selection
